General Use:
For instructions on how to use this product, see the video tutorials on the product page.

Licensing:
Shadow Studio 2 runs in unlicensed trial mode until a valid serial key is provided. Until then, a watermarked "X" will appear over all renders.

Once a serial key is provided, the watermark will be removed. If the watermark persists, please purge all memory and disk cache (Edit → Purge → All Memory & Disk Cache). If you're rendering via Adobe Media Encoder, a restart may be required for it to update the licensed status of the plugin.

Support:
If you're experiencing technical difficulties of any kind, please email us and we will endeavour to respond to your email within the next business day.

At Plugin Everything, customer satisfaction is our cocaine.
